Author Guidelines - Paper Submission

Paper length

Full papers for presentation and publication should not exceed 15 pages in total (tables, figures and references included)

Abstract

Maximum 150 words

Keywords

Up to 6

Text format

Font «Times New Roman» in «Word for Windows», size 12, line spacing 1.5 and margins of 2.5 cm on all sides of A4 page.

Authors

The information about authors (affiliations) should be reported immediately after their name, with «Times New Roman» font and size 10.

Headings

Heading 1 in **Bold**, same size as the text

Heading 2 in *Italics*, same size as the text

References

References should be listed in alphabetical order. They are reported after the main body of the article.

Notes

Notes should be numbered consecutively. Utilize only endnotes, after the references, instead of footnotes.

Tables and Figures

Tables and figures should have two dimensions, created by computer (e.g. Microsoft Excel, Word Perfect, Corel, etc.). It is better to avoid colored tables and figures. The tables should have titles, be numbered (left aligned) and report the data sources. Figures should also have a title (the entire title center aligned) and reference of data sources. If there are footnotes to the table or the figure they should be placed below the table or figure without an empty line with font size 11.

Mathematical Equations

The equations are numbered consecutively, throughout the whole text. The equation number is placed within parentheses in the same line as the equation, after five (5) empty spaces and all this is aligned in the center. For all variables *italics* are used.

Appendices

Appendices are reported numbered on the next page after the end of “Tables” and “Figures”: Appendix A.
