

*Cercle Gutenberg*

## **Charter of the Gutenberg Chairs**

### **1 – Definition**

Following an initiative from the *Cercle Gutenberg*, the Region Alsace Champagne-Ardenne Lorraine and the Eurométropole de Strasbourg have decided to fund *Gutenberg Chairs* to host, for approximately one year, highly-qualified research scientists of high international reputation. This is done in collaboration with the higher learning and research institutions located in Alsace. All research fields are eligible. In addition to the planned research activities, the awardee should take part in teaching activities, seminars, etc. and is encouraged to give lecture(s) to specialists as well as to a broader public.

These excellence chairs are awarded on the basis of the recommendations made by the *Cercle Gutenberg* whose members belong to the Institut de France, the Collège de France, the Institut Universitaire de France) and to major national and foreign academies.

Each Chair allows the selected awardee to receive a specific financial support, which however cannot be used to cover his own salary. The salary of the Chair holder must therefore be covered from other sources, e.g. the host institution(s), Foundations, or the home institution (sabbatical leave).

### **2 – Financial Support**

The 60 000 € grant is divided in two parts: 10 000 € represent the Gutenberg Prize and are given personally to the awardee to facilitate his relocation and 50 000 € are provided to the host institution(s) and are entirely devoted to the research program of the grant holder, without any deduction by the host institution(s). The latter amount can be devoted, i.e. to equipment, consumables, hosting costs, salaries paid to research contributors, doctoral grants, organisation of seminars, etc...

All supports foreseen by the host institution(s) for the invited scientist will be entirely maintained by that institution. The funding of the *Gutenberg Chair* can be cumulated with other public or private contributions.

### **3 - Selection**

The *Cercle Gutenberg* will provide the higher education and research institutions located in Alsace with the application forms.

The host institution(s) will provide a complete presentation of the candidate and of his/her scientific project in relation to the overall projects of the host institution(s). Full information on the financial and technical requirements of the candidate's project should also be provided.

The application presented by the host institution(s) should mention the research and teaching activities to be conducted by the candidate during his/her stay in Alsace.

The selection will be based on evaluations by an international multi-disciplinary jury, set up by the *Cercle Gutenberg*.

### **4 – Agenda 2016**

The completed applications must be submitted to the *Cercle Gutenberg* **before May 2nd 2016** and the Chairs should become operational in the academic year 2016/2017.
