Engage with STEMM experts and other
enthusiastic, talented STEMM students
in the international Global Talent
Mentoring community

Impact the future
Contribute to your STEMM field by
collaborating on STEMM
projects that relate to
current global challenges

*Participation is online
and free of charge
for mentees
and mentor
volunteers*

GLOBAL TALENT MENTORING

WHO

are we looking for?

Upper-secondary (high school)
students who demonstrate:

- Advanced knowledge in a
STEMM field
- Extremely high motivation to
pursue excellence

And will commit to:

- Develop STEMM expertise
in a long-term mentoring
relationship
- Actively engage and
collaborate with
other participants

BECOME A MENTEE

WHAT

is Global Talent Mentoring?

Global Talent Mentoring is a program that fosters excellence in science, technology, engineering, mathematics, and medical sciences (STEMM) worldwide for exceptionally talented youth through evidence-based, long-term, online mentoring. Launching in late 2020, Global Talent Mentoring bridges geographic and cultural distance to connect the brightest young minds with distinguished researchers, academics, and professionals in what will become a global pool of talent development. As a mentee, you will be matched with a STEMM expert with whom you will develop an individualized talent development plan. You will also have the opportunity to work on projects with your mentor, participate in research studies, and make connections with other young STEMM enthusiasts.
