

Joint Master Degree in AquaCulture, Environment and Society (ACES)

Erasmus Mundus Scholarships are available for our next intake of students starting in September 2020!

Students will be taught by a team of international experts, have the chance to study in four fantastic locations throughout Europe and gain the skills required to address an issue of global importance: food security through sustainable aquaculture production.

A fantastic opportunity has arisen for students which will allow them to

1. Study in up to four centres of European excellence for Aquaculture studies - Scotland, Greece, France and the Netherlands.
2. Work closely with industry and business in the world of Aquaculture and
3. Gain a Master degree through a highly prestigious European education programme supported by Erasmus Plus (previously Erasmus Mundus)

Moreover, our fees are highly competitive fees - (4,500 Euros (EU) and 9,000 EU (international students)
Up to 20 fully funded scholarships will be available (on a competitive basis) for the next academic year of the ACES programme, 2020-2022

Applications from EU and non-EU candidates are welcome – the programme is aimed at students from all over the world. Scholarships will cover tuition fees, living and travel expenses. This website contains all the information you need to know about the programme. You can also contact our Education Administrator, Helen Bury, via email ACES@sams.ac.uk. The closing date for scholarship applications is 14 February 2020. Please note, there is no application fee for ACES
See more at: <http://www.emm-aces.org/>

Application deadlines

Non-European and European scholarship applications: **14 February 2020**
