

**24<sup>th</sup> – 28<sup>th</sup> of May 2021, Department of Electronic Engineering**

**Hellenic Mediterranean University, Crete, Greece**

**In Zoom**

*Dear Partners, Dear Friends,*

*The International Relations Office of the Hellenic Mediterranean University (HMU) in collaboration with the Strategic Partnership Project 'Critical Skills of Electronic Engineer of 2020' (CRETE) and the European University Advanced Technology Higher Education Network Alliance (ATHENA) organize a School in Smart Cities & Technologies. The school takes place within the framework of the 8<sup>th</sup> Erasmus Week that the Department of Electronic Engineering of the HMU hosts.*

*The speakers in this school comes from both Academia and Industry. The aims of the school are the following:*

- *To introduce to the public (scholars, students, local society administration, general public) what smart is and what does it envision*
- *To present some of the disruptive smart technologies that will facilitate the transition from a traditional city to the city of the next century*
- *To be aware of technologies and services a smart city will leverage*
- *To present good examples of Smart Cities*

*The school also presents some key soft skills a citizen of a smart city should have e.g. time management, communication, collaboration, critical thinking. At the final day of the school, cultural presentations regarding the history and the culture of Crete will be presented by experts. In addition, all the participants from International Relations Offices will be able to present their activities at the same day*

*The school refers to Scholars, students and any citizen who would like to learn about the next era of a city. A certificate of attendance will be given to all the participants. The students will pass the final day exams (an oral presentation of a technology related to a smart technology, a certificate related to three ECTS will be awarded) The participants who would like to travel to Chania, Crete for their participation in this event are more than welcome. They can use the Erasmus classic mobility funds (in case you have a bilateral agreement with HMU). However, due to the COVID-19 situation, they are strongly advised to take all the safety measures during their online presentation from the facilities of HMU or their hotel facilities. During your stay you will communicate with HMU IRO office to discuss further collaboration options*

*More information about the program can be found [here](#)*

*In case you wish to participate in this event, please register using this [link](#) by the 17<sup>th</sup> of May 2021*

*On behalf of IRO-HMU, CRETE Project and the ATHENA European University*

*Associate Professor Konstantinos Petridis (cpetridis@hmu.gr)*
