## COALITION WORKSHOP DIGITAL EQUITY

### COALITION PROJECT

*Coaching Academics as Learners in Inclusive Optimal Networks*

*Speakers: Cormac McGrath and Reed Curtis*

This workshop offers a “Swedish smorgasbord” on different themes in relation to digital online equity and will be facilitated by three higher education experts from two Swedish Higher education institutions, Cormac McGrath, Stockholm University, Reed Curtis, University of Borås and Helena Reierstam, Stockholm University. The workshop will present data from current research and invite participants to reflect on their own teaching practices while addressing the following questions: What are students with disabilities’ (SWD) experiences of forced online education during the pandemic? How should the social needs of those with disabilities be considered when designing online courses? Is equity being lost in the age of digitalization of Higher Education?
