Communications-Kit Digital GreenTalents

Thank you for supporting the Digital GreenTalents Award! With this communication kit we want to make it as easy as possible for you to share the call for applications for the Digital GreenTalents Award. If you have any questions, please email us at maja.denisova@gi.de. You can find a sharepic, a flyer and an announcement in PDF form in the cloud.

General text module for the Digital GreenTalents

How can digitalization contribute to a more sustainable future at a time when global climate change is challenging our current economic system and way of life?
How can we protect and preserve our environment through digital tools and approaches?

The German Federal Ministry of Education and Research (BMBF) promotes the Digital GreenTalents – High Potentials in Sustainable Development Award to find solutions to these urgent issues.

The award nominates 20 highly motivated and talented young scientists from all over the world with innovative ideas and a strong focus on digitalization and sustainable development. It supports the international exchange of innovative digital ideas to harness the power of the digital age for sustainable development and offers a great chance to establish a long-lasting cooperation with the German Digital GreenTech community.

Digital GreenTalents is realised by the Project Management Agency Karlsruhe at the Karlsruhe Institute of Technology (KIT) and the Gesellschaft für Informatik e.V. and funded by the German Federal Ministry of Education and Research (BMBF).
